GREEN POLICY

The college is dedicated towards sustainable living, improving environmental management processes to condense carbon footprint and taking on various initiatives for creating consciousness on ecological balance.

The college is committed towards educating the students about the environmental concerns and issues through various curriculums and activities.

The college inspires students to take up small acts that makes a big difference towards environment protection as in turning power off when are not being used to save energy, reducing single-use-plastic use, using substitute for plastic such as paper/cloth bag.

Every stake holder is encouraged by the college to remain ethically committed towards Reduce, Reuse and Recycle initiative.

To promote green campus the efforts are constantly made to make the college plastic free to maximum extent and to use substitutes to plastic.

The directives given by the central and state government related to the environmental matter has to be punctiliously followed.

The college is committed towards reducing the usage of harmful chemicals and executing proper waste management (solid, liquid and E-waste)

Harnessing solar energy to its maximum potential by mounting solar panels as an alternative source of energy.

Recycling of organic waste through composting and it's usage as bio fertilizer to restore the soil.

For energy efficient college, use of energy efficient light and bulbs which consume very less electrical power.

Where ever possible sustainable resources are used this decreasing the usage of environmental unfriendly, toxic and hazardous substances.

Maintaining the green area in college and taking up various program to conserve and protect the biodiversity.

E-waste collection center is conventional by the college to ensure safe and effective disposal of E-waste.
