Brief report of expert session on Be a banker- Competition held on 16th Aug, 2017

Mr. Haider Ali Tarba from Saraswat bank Ambarnath East was invited to speak with the BBI students. He was asked to motivate and guide them. The students also were so enthusiastic to see him.

Details of the program:

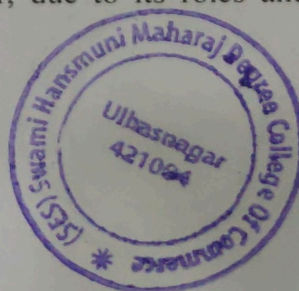

- The program started with a welcome speech by Ms. Vandana Kodwani (Co-ordinator), H.O.D, BBI Department where she introduced Mr. Haider Ali Tarba with BBI, BMS and BCom students.
- Mr. Haider Ali Tarba started his speech with special thanks to all the faculties as well as staffs for supporting and inviting him

Following are some highlighted points of the session: - Be a banker- Competition

The Indian banking sector has shown significant improvement in the past six years. It is because people are becoming more financially literate. So how to become a banker in India? The basic eligibility is clearing undergraduate degrees and clearing the relevant bank entrance exams. The duties of a banker are mainly concerned with loans, savings, taxes, and investments.

The global financial crisis reignited the interest of policy makers and academics in bank competition and the role of the state in competition policies (that is, policies and laws that affect the extent to which banks compete). Some believe that increases in competition and financial innovation in markets such as subprime lending contributed to the financial turmoil. Others worry that the crisis and government support of the largest banks increased banking concentration, reducing competition and access to finance, and potentially contributing to future instability as a result of moral hazard problems associated with too-big-to-fail institutions.

As in other industries, competition in the banking system is desirable for efficiency and maximization of social welfare. However, due to its roles and functions, there are some

properties that distinguish it from other industries. It is important to not only make sure that the banking sector is competitive and efficient, but also stable.

For those interested in **finance, business, and mathematics**, a career as a banker can be a perfect fit. The career of a banker is one that entails several multiple duties and responsibilities. In addition to the responsibilities, bankers also have a great many benefits and opportunities for advancement in their career opportunities. Bankers can also choose from a variety of job roles and settings; from customer-facing roles to analytical duties and big corporations to smaller financial institutions. Total 52 students participated in the seminar

Pros and Cons of Becoming a Banker

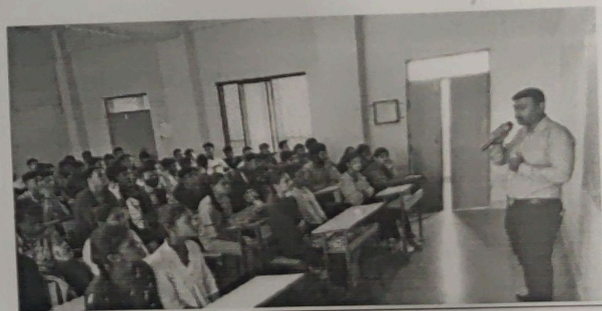

Now that you know about the details regarding becoming a banker, let's check the pros and cons of becoming one:

Pros of being a Banker include

- Full-time health, accident, disability and life insurance.
- Since banking organizations are very large, there is always the scope for branching out into other roles.
- Additional benefits such as private healthcare and discounts with large retail chains and discounts on mortgages, loans and credit cards from their employer after a set period.
- Job security and prestige that come with being a banker.

Cons of being a Banker include

- Long working hours which creative people may find to be boring and monotonous.
- Stressful job and increasing workload which demand bankers keep on turning a profit.
- The session continued with students asking questions regarding the Be a Banker-Competition.
- The session ended with vote of thanks by Ms. Priyanka Bhambere, Faculty - BBI Department who thanked Mr. Mr. Haider Ali Tarba for taking out time from his busy schedule and motivating as well as guiding the students of the Department for better career growth.
